

Setting up a TP Link Router on your Bluebox Broadband Connection

Thank you for choosing Bluebox.

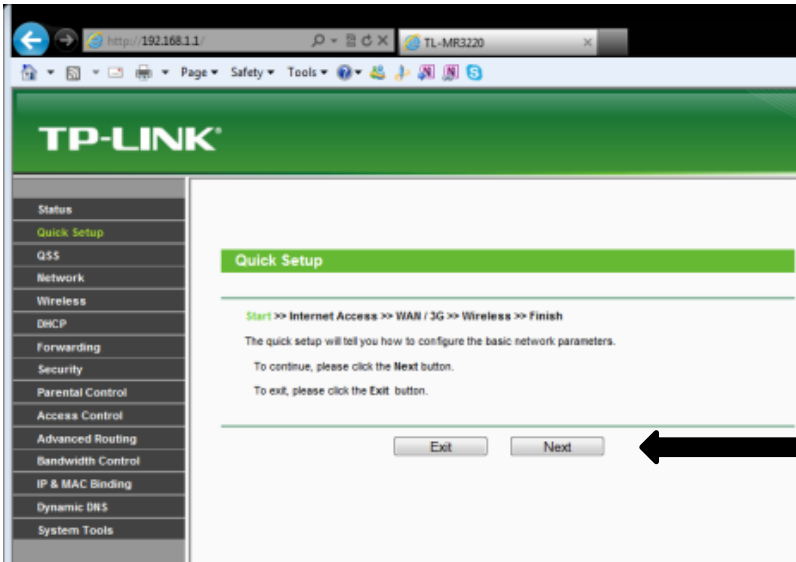

Now that you have decided to go wireless with your connection the first step is connecting to your routers wireless network using the wireless key supplied with the router. Following this please connect the LAN cable from our POE adaptor directly to the WAN port on the back of your wireless router.

Following this, type “192.168.1.1” in your browser (you do not need to type in anything else such as “http://” or “www”). Then press the Enter key. If prompted with a login screen please use the default login username and password supplied with your router.

(1) You will be presented with the following screen:

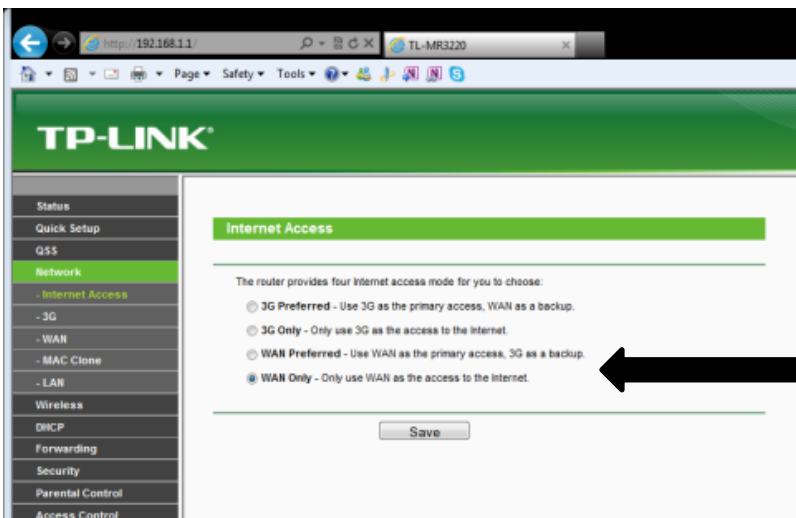

(2)

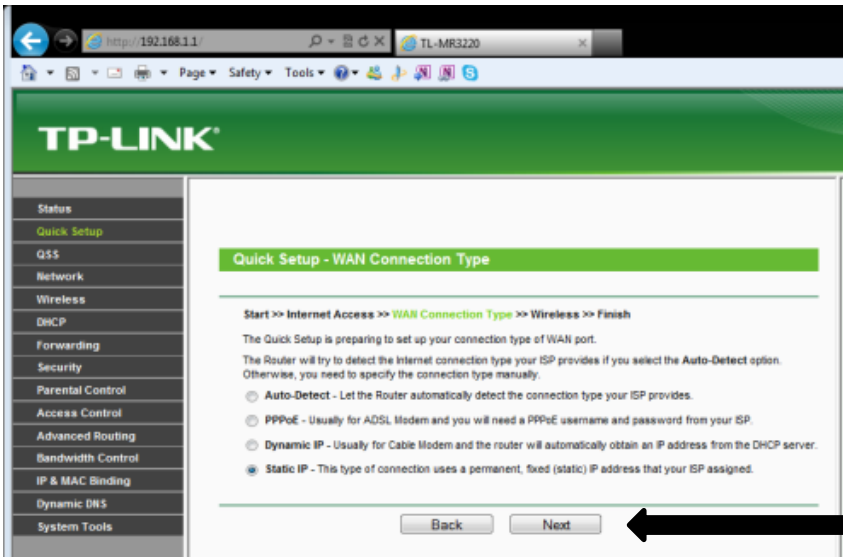

(2) Click on “Next” to continue the set up.

(3)

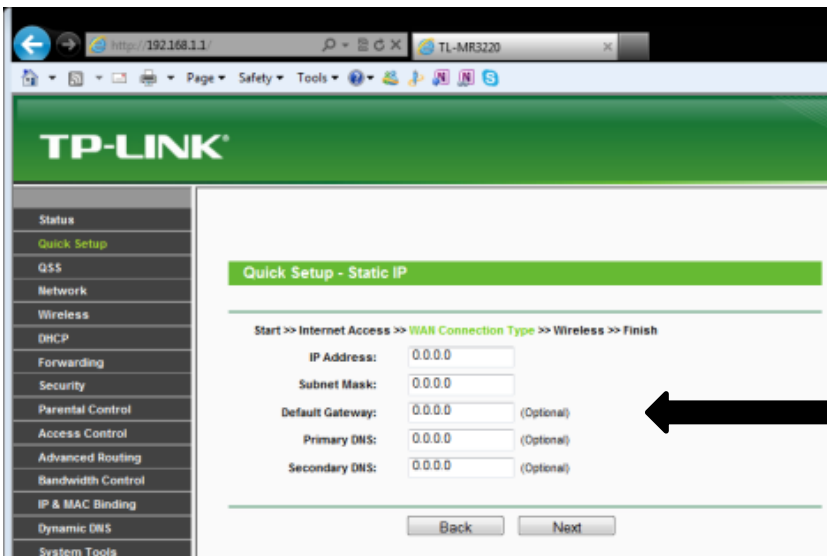

(3) The next stage in the setup is selecting “WAN Only” and clicking “Next”.

(4)

(4) Select "Static IP" from the list and click on "Next".

(5)

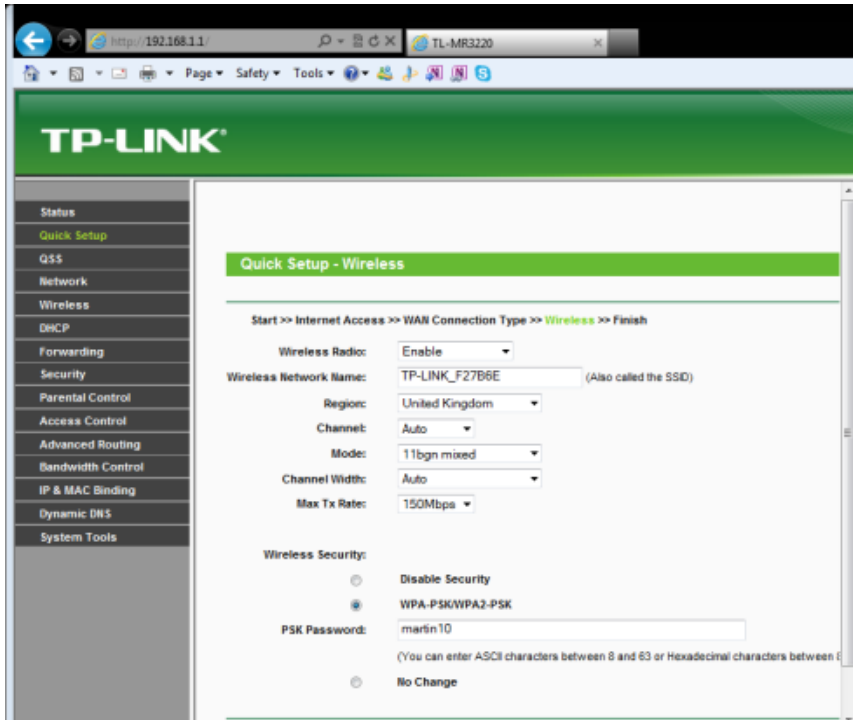

(5) Enter the details below and click Next.

| | |
|------------------------|-----------------------------|
| IP ADDRESS | 172. XXX . XXX . XXX |
| SUBNET MASK | 255.255.255.252 |
| DEFAULT GATEWAY | 172. XXX . XXX . XXX |
| PRIMARY DNS | 78.155.251.1 |
| ALTERNATE DNS | 78.155.250.1 |

Note: Details marked 'X' can be found on your Engineer receipt, by emailing broadband@nwewireless.com or by calling 02871351 999

(6) You will be presented with the following screen:

Please note that here at Bluebox we take no responsibility for a customer's wireless security. Please seek advice from your router documentation in setting up this feature. After configuring your wireless security settings you should close down the router setup screen.

At this point please ensure you are correctly connected to your wireless network so that you can enjoy your Bluebox connection wirelessly.

If you are unable to browse the internet following this setup then please do not hesitate to contact our support helpline on 02871 351999 or if you wish to do so send us an email at broadband@newireless.com and one of our technical representatives will reply shortly following the receipt of your email.
